The Natura Bissé Diamond Experience Million Dollar Facial is available by invitation only – Sienna Miller, Keira Knightley and Teri Hatcher have all experienced it. Instead of the crystals or stones often used to massage skin and rebalance energies, this uses diamonds – over £130,000 worth. It also includes a powerful cleanse and glycolic peel and marine-based mask, and uses moisturisers and spritzes from the Diamond range. Mere mortals can still book for the Diamond Experience Facial, which uses the same beauty-boosters, without the extra bling.
