Inhibit-Tensolift

PACKED WITH 71 PERCENT ACTIVE INGREDIENTS—THE HIGHEST CONCENTRATION ON THE MARKET—INHIBIT-TENSOLIFT IS CURRENTLY ONE OF THE MOST EXPENSIVE FACIAL TOPICAL SERUMS AVAILABLE.

01

DEEP-LINE FILLER

Working from the inside out, 12 percent of the product's ingredients hydrate each layer of the skin to collectively fill in facial lines throughout all layers of the skin.

02

TARGETED DELIVERY SYSTEM

Inactive components transport the active ingredients directly to the skin, acting as an enhanced delivery system to smooth wrinkles.

WHAT THE COMPANY SAYS

Botox in a bottle—but better. Formulated in a 50,000-square-foot office lab in Barcelona, Spain, Inhibit-Tensolift claims to lift away wrinkles immediately and firm all three layers of the skin, augmenting the longevity of injectables up to three months. [neimanmarcus.com](http://neimanmarcus.com)

03

3-D LIFTING TECHNOLOGY

The company promises its 3-D Lifting Technology will lift away wrinkles with a unique cumulative effect, leading to the product's endorsement by the president of the International Association of Plastic Surgeons, Dr. Javier de Benito.

04

DUAL-ACTION BENEFITS

Eight amino acids inhibit muscle contractions in the face to relax existing expression lines and prevent against future ones.
